BACKGROUND

Fair Trade is a trading partnership, based on dialogue, transparency and respect, that seeks greater equity in international trade. It contributes to sustainable development by offering better trading conditions to, and securing the rights of marginalised producers and workers – especially in the South. Fair Trade Organisations, backed by consumers, are engaged actively in supporting producers, awareness raising and in campaigning for changes in the rules and practice of conventional international trade. (*Definition of Fair Trade*, [International Fair Trade Charter](#))

As a joint initiative of Fairtrade International, the World Fair Trade Organization and the World Fair Trade Organization-Europe, the Fair Trade Advocacy Office leads the Fair Trade movement political advocacy at European Union level and contributes to the strengthening of the political advocacy capacities of the global Fair Trade movement. www.fairtrade-advocacy.org
